

DOI Work Activity 0G: Process On-Shore APM/Sundry Notices

Program Area:	Resource Use - Energy
End Outcome Goal:	UEO 1 - ENERGY - Manage or Influence Resource Use to Enhance Public Benefit, Responsible Development, and Economic Value
Intermediate Outcome:	UIO 1.1 (Fossil Fuels) - Effectively Manage and Provide for Efficient Access and Development
DOI Sub process:	4a – Manage use of resources

Examples/Notes: Count number of completion notices. Do not double count orphan wells plugged and sites reclaimed.

Work Activity Description: Includes all post-APD operational work as reported on the Sundry Notice form; support costs; records management costs; costs of coordination with the operator, surface owners, other Federal and State agencies and public interest groups. Includes procedural and monitoring operations such as reviewing well completion information, well status, and production capabilities for accuracy and potential problems; subsequent well operations such as re-drilling, reworking, repairing and abandonment. Subsequent well operations may require prior approval and/or subsequent report. Does not include activities related to Applications for Permit to Drill (APD) or geophysical permitting.

Output: Notices processed	Unit of Measure: Number of notices processed
Inputs:	Cost Drivers:
